Centro Hospitalar do Porto (CHP), one of Porto's largest and busiest teaching hospitals, comprises a general hospital (Hospital Santo António), a pediatric hospital (Hospital Maria Pia) and a maternity (Maternidade Júlio Dinis).

CHP provides specialist services to patients from Northern Portugal and is recognized for its work in liver disease and transplantation, familiar amiloid polyneuropathy and neurosciences. Traditionally, all Wilson's disease patients are assessed in a multi disciplinary approach that includes neurology, hepatology, ophthalmology and internal medicine.
