

Laboratory services

Download
booklet

A small number of specialist laboratories have developed molecular diagnostic tests for Wilson disease. As a part of the EuroWilson project, these laboratories have formed a network in which there is collaboration and a quality assurance scheme www.emqn.org. Techniques have rapidly improved, and there are now rapid methods for detecting the common mutations. Rapid sequencing has also made it much easier to detect less common or previously unknown mutations.

Consideration will also be given to the availability of facilities for liver copper assay and its quality assurance.

List of laboratories registered to the 2008 Wilson's disease EMQN:

Contact Person	Lab name	Town	Country	
Dr Diane Cox	University of Alberta	Edmonton, Alberta	Canada	✕✕

Dr Diane Cox
 Email : diane.cox@ualberta.ca
 Tel. : 1-780-492-7501
 Fax. : 1-780-492-1998

 Address :
 University of Alberta
 8-39 Medical Sciences Building
 Edmonton, Alberta
 T6G2H7
 Canada

Prof Jadranka Sertic	Klinicki bolnicki centar Zagreb	Sveta Nedelja	Croatia	✕✕
